

MOHAMMED AHMED HUSSAIN AHMED ALI

Creative Content Creator & Lead Video Editor | One-Man Production Unit

Kampala, Uganda | +256 772 761 620 | DOB: 19 Aug 2006

PROFESSIONAL SUMMARY

A relentless Solo Operator and Creative Content Creator who owns the entire production pipeline — from scouting and shooting in live, unpredictable environments to delivering broadcast-quality, fast-paced edits that stop the scroll. Equally at home on busy streets, live events, and controlled studio sets, with hands-on mastery of lighting rigs, lavalier and shotgun mic setups, and gimbal-stabilised camera work. Executes cinematic colour grades in DaVinci Resolve and razor-sharp rhythm cuts in Adobe Premiere Pro with zero reliance on a crew. Specialises in repurposing long-form documentary and event footage into high-retention short-form reels — built for platforms that reward the first three seconds. One camera. One editor. Zero compromise.

PROFESSIONAL EXPERIENCE

Creative Content Creator & Lead Video Editor | Oct 2023 – Present

Freelance & Contract | Solo Production | Multiple Clients

- Direct and execute full solo productions across real-world locations — streets, community events, corporate venues, and outdoor settings — with no crew support.
- Configure and operate professional audio setups (lavalier, shotgun, boom) and portable lighting rigs (LED panels, reflectors, diffusers) to guarantee broadcast-clean captures on every shoot.
- Deliver fast-paced, rhythmically precise edits in Adobe Premiere Pro and DaVinci Resolve, engineering cuts that sustain viewer retention and amplify brand storytelling from the first frame.
- Apply advanced cinematic colour grading workflows — LUTs, node-based correction, scene-by-scene calibration — producing polished visuals consistent with each client's aesthetic.
- Repurpose long-form documentary and event content into punchy short-form reels and social-ready clips optimised for vertical-format, high-retention consumption.
- Manage the full post-production pipeline independently: ingest, rough cut, colour, audio mix, motion graphics, and final export — consistently hitting tight client deadlines.

Media Officer & Visual Documentarian | 2025 – Present

NGO & Corporate Initiatives | Sawtuhun Feminist Academic Center · Uns Organization · Awareness Youth Community

- Serve as the sole media authority across three active organisations, directing and shooting all video and photo documentation without additional production staff.
- Produce high-impact short documentary films and event coverage pieces capturing community advocacy, human rights programming, and grassroots campaigns in dynamic field conditions.
- Shoot and edit interview-driven content, managing complex lighting setups in non-studio environments to achieve consistent, professional on-screen quality.
- Repurpose raw long-form footage into platform-optimised reels and digital campaign clips, maximising content reach and audience engagement for each organisation.
- Build and maintain comprehensive media archives and documentation packages that serve institutional reporting and stakeholder communication requirements.

Documentary Photographer | 2022 – Present

Independent Projects | Field & Event Coverage

- Capture authentic, unguarded human emotion across advocacy events, community gatherings, and sporting environments, operating confidently in fast-moving, unpredictable settings.
- Demonstrate a trained eye for light, framing, and decisive moment — skills that directly translate to a strong cinematographer's instinct behind the video camera.
- Execute comprehensive field coverage from pre-event setup through full post-production, delivering complete, publication-ready image sets to clients on deadline.
- Apply professional colour correction and retouching in Adobe Lightroom and Photoshop to produce cohesive, polished image libraries aligned with each client's visual tone.

EDUCATION & CERTIFICATIONS

BSc in Mechanical Engineering — Year 1

Sudan University of Science and Technology

Capacity Building Graduate | Kepler Iteme Program | Jun 2026

Developed advanced project management frameworks, critical thinking methodologies, and structured creative workflow strategies — directly applied to end-to-end solo production execution.
